

## The University of Jordan

### Community Medicine (0505205)/ Second Year Medical Students

#### First semester 2023/ 2024

Based on the article provided (article 1), answer the following question.

What are the commitments of the new Astana declaration for Primary Health Care conducted in 2018?

-The first commitment of the Astana declaration is “make bold political choices for health across all sectors.”

-The second commitment is to “build sustainable primary health care.”

-The third commitment of the new declaration is to “empower individuals and communities.”

**Note:** You are not required to submit an assignment regarding the answers to this question. However, this article is an exam required material.

**Article 2:** What are the elements of the “**Tripod of neglect**” in the Inter Sectoral Collaboration (ISC) in Primary Health Care? (Hint: See Figure 1).

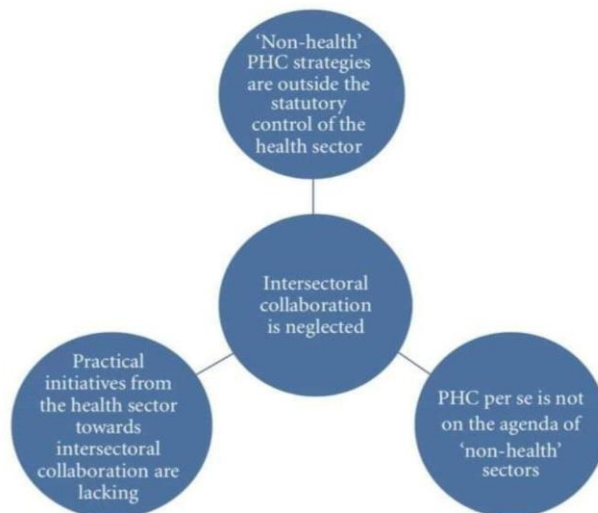

FIGURE 1: The “Tripod of Neglect” of intersectoral collaboration.

**Note:** You are not required to submit an assignment regarding the answers to these questions. However, these articles are exam required material.

Elearning video (the time is now):

the principles for PHC declared by Almata were:

- ✓ community participation
- ✓ equity
- ✓ integrated approach

3

a unique manifestation of international health solidarity implies the presence of

- community-based health system ✓ and an
- equitable distribution of health resources ✓

that would lead to
