

1 - Quiz

All the following are posterior to the right kidney EXCEPT

☒ Liver ✓

☐ Liver ✓

☐ Subcostal nerve

☐ psoas major

☐ quadratus lumborum

2 - Quiz

The pubococcygeus muscle takes origin from

☐ Ischial spine ✗

☐ Anterior half of white line ✓

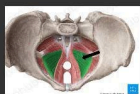

☐ posterior half of white line

☐ Ischial spine

☐ coccyx

3 - Quiz

The pointed structure is muscle

☒ Iliococcygeus ✓

☐ Coccygeus

☐ Iliococcygeus ✓

☐ puborectalis

☐ Pubococcygeus proper

4 - True or False

Sensation from the small intestine is carried by sympathetic

☒ True ✓

☐ True ✓

☐ False

5 - Quiz

All the following are a branch of anterior division of internal iliac artery EXCEPT

☒ Superior gluteal ✓

☐ Superior vesical

☐ Middle rectal

☐ Superior gluteal ✓

☐ Internal pudendal

6 - Quiz

The obstetric conjugate extends between and

☒ Sacral promontory and middle of pubic bone ✓

☐ Sacral promontory and middle of pubic bone ✓

☐ Sacral promontory and lower end of symphysis pubis

☐ Sacral promontory and upper end of symphysis pubis

☐ Ala of sacrum and middle of pubic bone

* Kidney

Q1: All the following are posterior to the right kidney except:

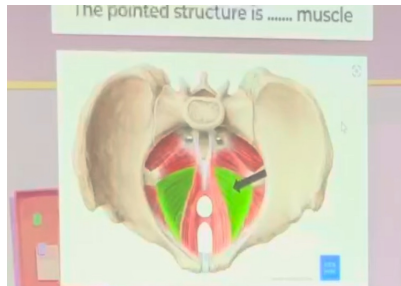

A-Liver B-Subcostal nerve C-psoas major D-Quadratus lumborum

Q2: The pubococcygeus muscle takes origin from:

A-anterior half of white line B-posterior half of white line

C-Ischial spine D-coccyx

Q3:

A-coccygeus B-Iliococcygeus

C-puborectalis D-pubococcygeus proper

Q4: Sensation from the small intestine is carried by sympathetic:

A-True B-False

Q5: All the following are a branch of anterior division of internal iliac artery except:

A-superior vesical B-Middle rectal C-superior gluteal D-Internal pudendal

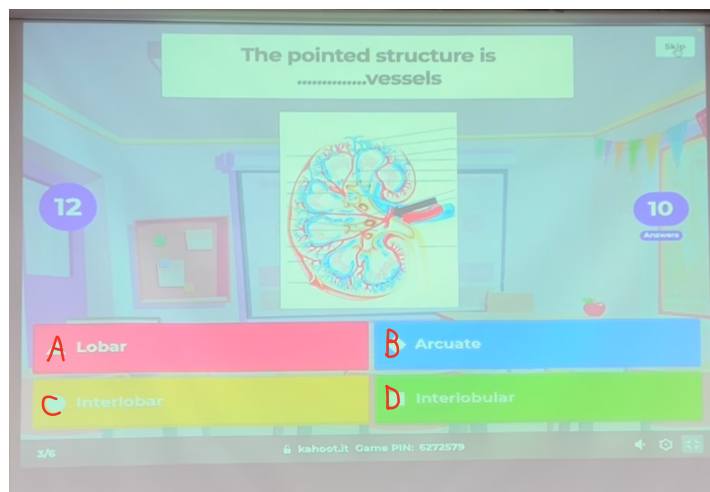

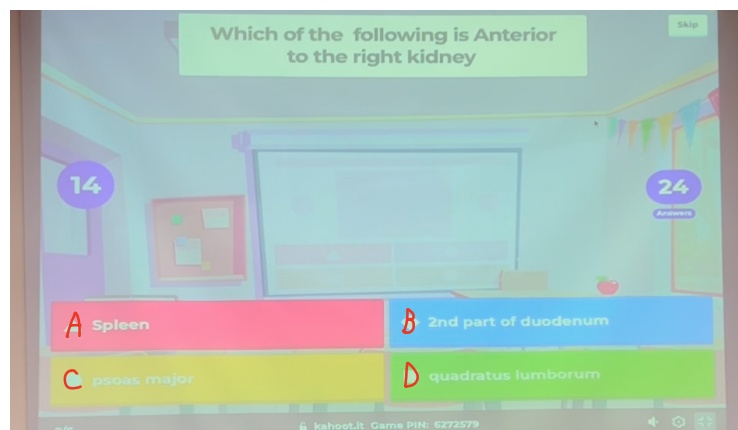

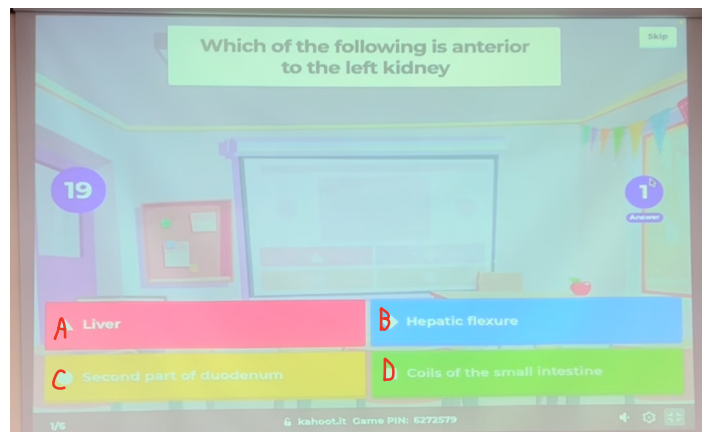

Q6: The obstetric conjugate extends between _____ and _____

A-Sacral promontory and middle of pubic bone B-Sacral promontory and lower end of symphysis pubis

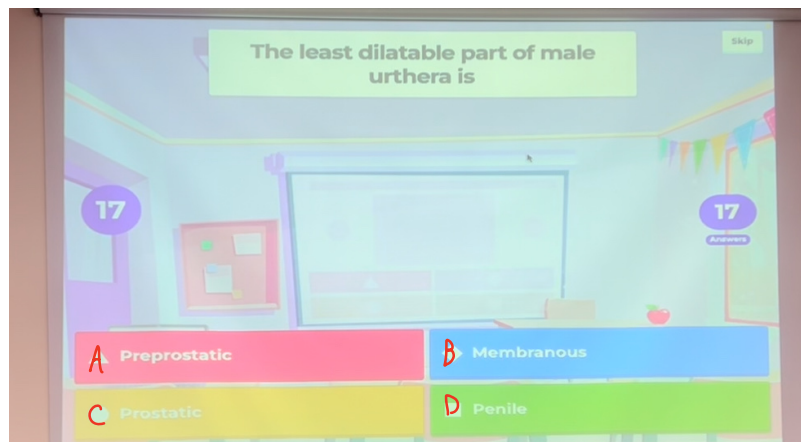

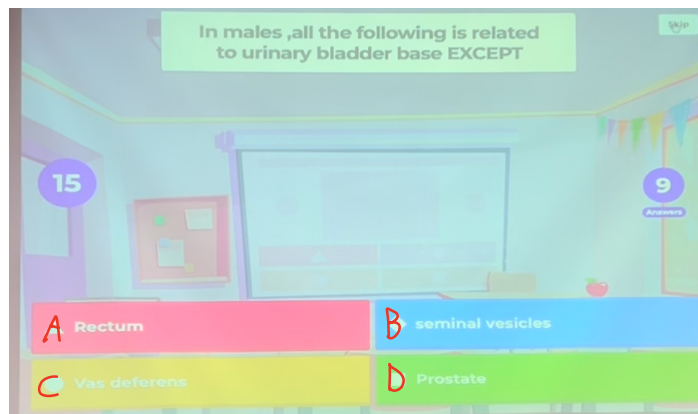

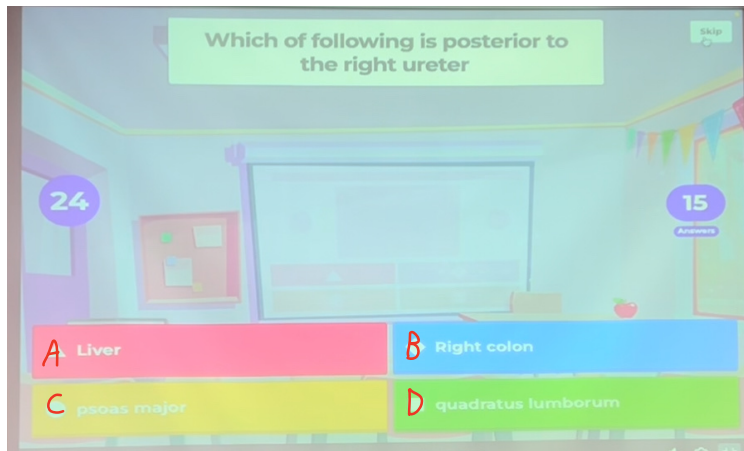

C-Sacral promontory and upper end of symphysis pubis D-ala of the sacrum and middle of pubic bone

answers: A, A, B, A, C, A

*Male genital system

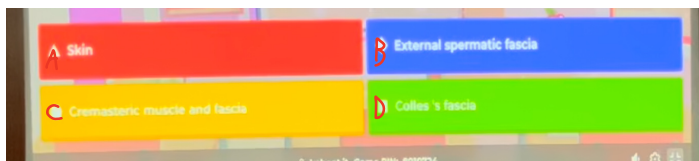

Answers:- D,B,A

Answers:- C, D, B

* Male genital system 2

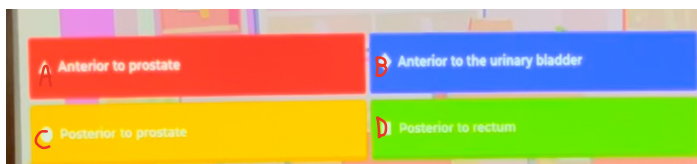

External oblique muscle in anterior abdominal wall is replaced in the scrotum by

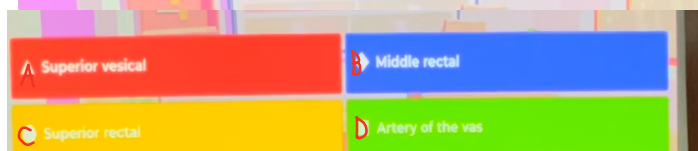

The left testicular vein is drained by

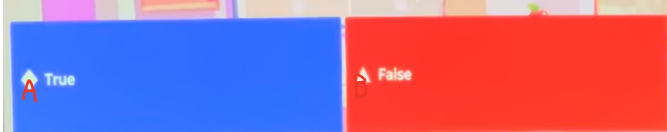

The rectovesical fascia is

The seminal vesicles is supplied byartery

The prostate gland is drained by deep inguinal lymph nodes

answers: B, D, C, B, B
